PROJECTS

Queen City Pups

Collaborated with a group of five developers to design a webpage that allows dog owners in Charlotte, NC to access local resources for their favorite pup in Queen City. This application uses Handlebars.js as a template engine, MySQL database, and Node.js.

Github Repository: <https://github.com/tedtaltimmy/queen-city-pup>

Deployed Webpage: <https://evening-river-11733.herokuapp.com/>

Tech-Blog

A tech-blog that allows users to create an account and post on a blog forum. Users have the ability to comment on others posts, as well as, editing and deleting their own blog posts. This application uses Handlebars.js, node js, mysql, and other technologies.

Github Repository: <https://github.com/BrandyM98/tech-blog>

Deployed Webpage: <https://murmuring-atoll-71811.herokuapp.com/>

Pokemon-Giphy

Collaborated with a group of four developers to design a webpage that allows Pokemon fans to search any Pokemon and receive a variety of information in regards to that said Pokemon. This application uses JavaScript, Bootstrap, jQuery, and local storage.

Github Repository: <https://github.com/BBelk/pokemon-giphy-group-project>

Deployed Webpage: <https://bbelk.github.io/pokemon-giphy-group-project/>
